Subject: RE: TIME-SENSITIVE - IMPORTANT TSCA SACC Member Request for responses to 4 Questions regarding

"Impartiality": 5 chemical risk evaluations that will be reviewed by the TSCA SACC

Hi Dan,

Thank you for your quick response. I shall review your materials in conjunction with the September and October meetings. If all goes well, I should be able to stop over at the TSCA SACC meeting later this week. My first priority is to get the September panel set up.

Regards, Sharlene

Importance: High

Hi Sharlene!!

long time no see. I hope you are well.

I can answer no to the four questions for all of the compounds

I plan on attending the Sept and Oct meetings.

All the best,

Dan

Greetings!

I've addressed this message to all 21 current TSCA SACC members, "bcc," to avoid inadvertent replies to all.

Thank you again for your participation on the TSCA SACC.

The TSCA SACC has a very busy schedule in 2019 with meetings scheduled from June through December 2019. On December 19, 2016, EPA published a list of 10 chemical substances that are the subject of the Agency's initial chemical risk evaluations, as required by TSCA § 6(b)(2)(A). The docket numbers, problem formulations, scope documents and supplemental documents for the 10 chemical substances that EPA initiated the risk evaluation process for in December 2016 can be found here:

- Pigment Violet 29 (TSCA SACC meeting, June 2019)
- 1, 4 Dioxane (TSCA SACC meeting, July 29-Aug 2, 2019)
- Cyclic Aliphatic Bromide Cluster (HBCD) (TSCA SACC meeting, July 29-Aug 2, 2019)
- 1-Bromopropane TBD
- Methylene Chloride TBD
- N-Methylpyrrolidone TBD
- Perchloroethylene TBD
- Trichloroethylene TBD
- <u>Carbon Tetrachloride</u> TBD
- Asbestos TBD

Future meetings will focus on the Agency's draft risk evaluation for the remaining seven (7) chemicals: 1-bromopropane, methylene chloride, N-Methyl-2-pyrrolidone (NMP), perchloroethylene, trichloroethylene, carbon tetrachloride, and asbestos.

For planning purposes, please respond to the four questions regarding "impartiality" with respect to 1-bromopropane, methylene chloride, N-Methyl-2-pyrrolidone (NMP), perchloroethylene, and trichloroethylene (see Table below and word file attached). In addition, please indicate your availability for the following dates September 9-13, 2019 and October 21-25, 2019. A public announcement of the specific draft chemical risk evaluations for the September meeting will be published with the next 2 weeks; however, we need to make sure that there is a quorum of TSCA SACC members and adequate

representation of expertise (additional ad hoc members) to address the Agency's charge before the official announcement is published. I know many of you will be traveling to the upcoming TSCA SACC meeting on 1,4-dioxane and HBCD, July 29-August 2, 2019. Time is of the essence. Please contact me if you have questions or concerns.

Thank you.

Sharlene (mobile: 240-286-4365 (Fridays); office: 202-564-0130)

Questions	1- Bromop
(1) Do you know of any reason that you might be unable to provide impartial advice on the matter to come before the panel/committee/subcommittee or any reason that your impartiality in the matter might be questioned?	

(2) Have you had any previous involvement withthe review document(s) under consideration including authorship, collaboration with the authors, or previous peer review functions? Ifso, please identify and describe that involvement.	
(3) Have you served on previous advisory panels, committees or subcommittees that have addressed the topic under consideration? If so, please identify those activities.	
(4) Have you made any public statements (written or oral) on the issue that would indicate to an observer that you have taken a position on the issue under consideration? If so, please identify those statements.
